

East Hagbourne Parish Council

Our Pavilion car park needs work - Please show your support

Our new Pavilion at Great Mead is a marvellous facility, but the reinforced grass surface has not survived the rain and the traffic very well and now needs better drainage and an improved surface.

We have a solution that will be both durable and green, but the cost is around £55,000 and we cannot obtain grant funding for this project. The Parish Council can contribute £10,000 from reserves and so will need to take out a loan of £45,000.

The Public Works Loan Board can provide a loan over 10 years at a very favourable rate of 1.83%, however we need to demonstrate that the community supports this project and is aware of the impact it may have on their Council Tax.

Every house in East Hagbourne parish should have received a flyer through your letterbox asking for your support.

Please Show Your Support by responding to the simple question and returning your form.
