Hagbourne Village Show 2018

Rules for the Hagbourne Village Show

1. All entrants must be resident in the Hagbournes, children (and their families) attending the Hagbourne school, members of the Hagbourne Garden Club or anyone who gardens an allotment in the Hagbourne Parish.
2. All entries must have been grown, except for flower arrangements, or made by the exhibitor. Pot plants should have been owned by the exhibitor for at least three months.
3. Judgement will include the condition and uniformity of the specimens, as well as the size and colour. All fruits should be fully ripe.
4. All exhibits must be staged between 9.00 a.m. and 11.00 a.m. separately according to the class in which they are entered. Staging will be carried out with the help and supervision of committee members. No exhibitor may enter the hall between 11.00 a.m. and 2.00 p.m.
5. The committee will take all possible care of exhibits but will not be responsible for any loss or damage.
6. The judges are at liberty to taste all produce.
7. The committee have the power, on the recommendation of the judges, to give extra prizes where considered desirable, or to withhold any prize should the exhibits be considered of poor standard.
8. The judge's decision will be final.
9. Contravention of these rules renders the exhibitor liable to disqualification.
10. All craft articles must have been completed during the last two years. For craft items, judgement will take account of artistic merit and creativity.
11. All exhibitors may make up to three entries for any one class.
12. All produce not removed after Prize-giving will be auctioned.

Handy Hints

- a) Uniformity is more important than size. For example, three high quality, equally sized specimens are better than one large one and two smaller ones.
- b) Fruits and vegetables should be exhibited with their natural bloom and NOT polished.
- c) Fruits (Including apples) should have their stalks left on and handled by the stalks where possible. Avoid handling any exhibit more than strictly necessary.
- d) Root crops should be lifted carefully. For this, it is often helpful to water them the day before and this helps to keep the exhibit fresh after lifting. To remove the soil, wash carefully using a sponge or soft cloth, and never use a brush. After washing, wrap in a damp cloth.
- e) State the variety of fruit or vegetable when possible.
- f) With flowers, if necessary protect blooms from the weather before the Show.
- g) Removal of secondary shoots and buds will usually enhance the main bloom.
- h) Cut flowers in the evening or early morning with as long a stem as possible and make a slanting cut.
- i) Preserves should be in well-polished jars, clearly labelled with contents and date, and filled to the top.
