

How to make a Bunting Pennant Template

- Using a sheet of A4 card, fold lengthways, crease one end to find the centre and mark with a pen - see (a)
- Place a ruler between marks (a) and (b) and draw a line between both on right and left hand sides of card (c)
- Cut along these lines to form the template – you may wish to save the off cuts to form a further triangle

To make into a pennant

- Using your chosen fabric, cut two pennant shapes
- Decorate one side of the pennant applying any motifs you wish
- Place right sides of pennant together and leaving the top open, sew down the two long sides using a 0.5cm seam
- Trim point to make less bulky but avoid cutting stitches
- Turn inside out using a knitting needle to get a good point and then press
